

# Making the most of your Annual Member Statement

## Video transcript

Your Annual Member Statement may not seem important now, but it has valuable information about your savings for your future. It's your money, so it's important you understand and know you're on track for the future you want. So regardless how far or near you are to retirement, it's always the right time to understand your options. So just take 10 minutes out and get to grips with your statement. Here are the top two things you should take from it.

Firstly, a snapshot of the benefits you've built up and any savings you have. Think about what you have and what you want in retirement and if you don't quite feel on track, you could set yourself some savings goals.

Secondly, if you have savings in the Investment Builder, do you know where these savings are invested? Check in My USS, our online portal, that your investment choices are right for you and when you want to take them, which is your Target Retirement Age.
